The screenshot displays the Azuki EPG interface. At the top, there is a header with the 'azuki' logo and navigation icons. Below the header is a large preview area for a selected TV show, which is currently blank with a large 'X' over it. To the right of the preview are three green buttons: 'Fullscreen', 'Record', and 'Set Reminder'. Below the preview is a navigation bar showing the date 'SEP 23 FRI' and a 'genres' dropdown menu. The main area is a grid of program tiles for the time slots 3:30PM, 4:00PM, 4:30PM, and 5:00PM. Each tile includes a network logo and program details. A vertical green line indicates the current time is 3:40. The bottom of the screen shows an Android-style navigation bar with a back arrow, home button, and recent apps button, along with a status bar displaying the time 3:40 and various system icons.

Screen Sizes and Densities

This section provides data about the relative number of devices that have a particular screen configuration, defined by a combination of screen size and density. To simplify the way that you design your user interfaces for different screen configurations, Android divides the range of actual screen sizes and densities into several buckets as expressed by the table below.

For information about how you can support multiple screen configurations in your application, read [Supporting Multiple Screens](#).

	ldpi	mdpi	tvdpi	hdpi	xhdpi	xxhdpi	Total
Small	9.4%						9.4%
Normal	0.1%	15.3%		33.5%	22.8%	7.7%	79.4%
Large	0.6%	3.5%	1.2%	0.5%	0.6%		6.4%
Xlarge		4.4%		0.3%	0.1%		4.8%
Total	10.1%	23.2%	1.2%	34.3%	23.5%	7.7%	

Data collected during a 7-day period ending on October 2, 2013. Any screen configurations with less than 0.1% distribution are not shown.
